

University of Arkansas
Institutional Biosafety Committee
Registration for Research Projects
Form 1: GENERAL INFORMATION

IBC Number:

For Committee Use Only.

Principal Investigator Name: First M.I. Last

Please check the boxes for any of the forms below that are applicable to the research project you are registering. *The General Information Form (Form 1) MUST be completed on all submitted project registrations, regardless of the type of research.*

General Information (MUST BE COMPLETED) (Form 1)

Recombinant and/or synthetic nucleic acid molecules (rDNA; Even if EXEMPT from the NIH Guidelines) (Form 2)

Risk Group 2 or 3 Organisms (pathogenic to humans/plants/animals) (Form 3)

Biological Toxins (Form 4)

Human Materials/nonhuman primate materials (Form 5) IRB # (if applicable):

Animals or animal tissues and any of the above categories; transgenic animals; wild vertebrates or tissues (Form 6) AUP # (if applicable):

Plants, plant tissues, or seed any of the above categories; transgenic plants, plant tissues, or seeds (Form 7)

Notice to Pat Walker Health Center (Form 8)

Use of Mammalian Tumor Cell Lines (Form 9)

1. To initiate the review process, you must attach and send all completed registration forms via email to: ibc@uark.edu . ALL REGISTRATION FORMS MUST BE SUBMITTED ELECTRONICALLY.

2. If you (the PI) are unable to sign Page 1 digitally, please print out page 1 of this form, sign, date, scan and email it to ibc@uark.edu. You may also mail to: Compliance Coordinator-IBC, 109 MLKG, Fayetteville, AR 72701 or FAX it to 479-575-6527.

As Principal Investigator:

I attest that the information in the registration is accurate and complete. I will submit changes to the IBC in a timely manner.

I am familiar with and agree to abide by current, applicable guidelines and regulations governing my research, including, but not limited to, the *NIH Guidelines for Research Involving Recombinant or Synthetic Nucleic Acid Molecules* (NIH Guidelines) and *Biosafety in Microbiological and Biomedical Laboratories* (BMBL).

I agree to accept responsibility for training all laboratory and animal care personnel involved in this research on potential biohazards, relevant biosafety practices, techniques, and emergency procedures.

If applicable, I have carefully reviewed the NIH Guidelines and accept the responsibilities described therein for principal investigators (Section IV-B-7).

I will submit a written report to the IBC and to the NIH Office of Science Policy (if applicable) concerning: any research-related accident, exposure incident, or release of rDNA materials to the environment; problems pertaining to the implementation of biological and physical containment procedures; or violations of the NIH Guidelines.

I agree that no work will be initiated prior to project approval by the IBC.

I agree that either the PI or a Co-PI will appear before the IBC to answer any questions or address concerns about this protocol in order to secure approval.

Signature (PI):

Date:

CONTACT INFORMATION

Principal Investigator:

Name: _____ Title: _____
Department: _____ Campus Address: _____
E-Mail: _____
Phone: _____ Fax: _____

After hours phone number (required if research is at Biosafety Level 2):

Phone: _____

Co-Principal Investigator:

Name: _____ Title: _____
Department: _____ Campus Address: _____
Phone: _____ E-Mail: _____
Fax: _____

After hours phone number (required if research is at Biosafety Level 2):

Phone: _____

PROJECT INFORMATION

Have you registered ANY project previously with the Institutional Biosafety Committee? (Check one) Are you registering a new project or renewing a previous project registration? Yes No

<input type="checkbox"/> New project	<input type="checkbox"/> Modification	<input type="checkbox"/> Renewal (Mandatory after 3 years)
--------------------------------------	---------------------------------------	--

Project Title: _____

Project Duration: Start Date _____ End Date _____

Indicate what containment conditions you propose to use (check all that apply):

<input type="checkbox"/> Biosafety Level 1 (2,3)	<input type="checkbox"/> Biosafety Level 2 (2,3)
<input type="checkbox"/> Animal Biosafety Level 1 (2,3a,3b)	<input type="checkbox"/> Animal Biosafety Level 2 (2,3a,3b)
<input type="checkbox"/> Plant Biosafety Level 1 (3)	<input type="checkbox"/> Plant Biosafety Level 2 (3)

NOTE: Hyperlinks for references throughout this form are available on the last page of this form.

If working at BSL-2, has your laboratory been inspected by the Biological Safety Officer or a member of the IBC?

Yes Date (if known) _____

No (If No - schedule the inspection with the BSO)

Please provide the following information on the research project (**Please DO NOT attach or insert entire grant proposals unless it is a Research Support & Sponsored Programs proposal**)

This information can be attached as a Word document or entered into the space provided. If more space is needed, you may attach a Word document. Please indicate "see attached" and list the file name in the space below.

Project Abstract:

Specific Aims:

If more space is needed, you may attach a Word document. Please indicate "see attached" and list the file name in the space below.

Relevant *Materials and Methods*: *(this information should be specific to the research project)*

Relevant *Materials and Methods* (cont'd): *(this information should be specific to the research project)*

PERSONNEL QUALIFICATIONS & FACILITY INFORMATION:

List all personnel (including PI and Co-PI) to be involved in this project:

Name: (first and last) - **POSITION** (Title, academic degrees, certifications, and material field of expertise) and **ROLE On PROTOCOL** (PI, Co-PI, Lab Manager, etc.)

Example:

Bob Biohazard - Associate Professor,
PhD Microbiology, PI

QUALIFICATIONS/TRAINING/RELEVANT EXPERIENCE Describe previous work or training with biohazardous and/or rDNA and include Biosafety Levels)

14 yrs working with *E. coli* at BSL1, *Salmonella enterica* at BSL2, 8 yrs working with transgenic mice.

Additional Personnel Information (if needed):

Form 1: GENERAL INFORMATION, contd.

List all the laboratories/facilities where research is to be conducted (specify building, room number and category for each (e.g. laboratories, cold/warm rooms, animal care facilities or farms, growth chambers and greenhouses, biological material storage areas, tissue culture rooms.)

	Building	Room Number	Category	Biosafety Level	New Biohazard Door Sign?
1.					Yes
2.					Yes
3.					Yes
4.					Yes
5.					Yes
6.					Yes
7.					Yes
8.					Yes
9.					Yes
10.					Yes
11.					Yes
12.					Yes

Additional Laboratory/Facility Information (if needed):

*** Biohazard signs are required for entrances to Biosafety Level 2 areas (including Animal Biosafety Level 2 areas). The Office of Environmental Health & Safety will supply these signs.**

If an updated biohazard sign is required, please indicate the location and what agents/organisms/hazards should be listed on the sign in addition to what is being registered. Describe below:

SAFETY PROCEDURES:

Please indicate which of the following personal protective equipment (PPE) will be used to minimize the exposure of laboratory personnel during all procedures requiring handling or manipulation of the registered biological materials.

GLOVES:

Latex Vinyl Nitrile Leather Other (specify)

FACE & EYE PROTECTION:

Face Shield Safety Goggles Safety Glasses Other (specify)

CLOTHING PROTECTION:

Disposable clothing protection Reusable Coverall
Reusable Lab Coat Other (specify):

How will protective clothing be cleaned once dirty or contaminated? (Check all that apply)

Autoclaved prior to laundering or disposal Laundered in on-site facilities with bleach
Laundered with qualified commercial service Other (specify):

Outline procedures for routine decontamination of work surfaces, instruments, equipment, glassware and liquid containing infectious materials (Autoclaving or fresh 10% bleach as a chemical disinfectant are preferred treatments; please specify and justify exceptions):

If more space is needed, you may attach a Word document. Please indicate "see attached" and list the file name in the space below.

Describe waste disposal methods employed for all biological and recombinant materials used. (Please include methods involving the following types of waste)**

Sharps:

**Cultures, stocks,
and disposable
labware:**

**Biohazardous
Waste:**

Other:

**** For more information, please reference the [Biological Safety Manual](#) (click to view).**

Indicate autoclave location(s) used for waste disposal and describe autoclave validation procedures:

Will you be using a biological safety cabinet? (choose one) Yes No

If yes, please provide the following information:

SERIAL #	FAMA #	CERTIFICATION EXPIRATION DATE	LOCATION OF UNIT (Bldg./room)	MAKE/MODEL
----------	--------	----------------------------------	----------------------------------	------------

Indicate if any of the following aerosol-producing procedures will occur:

Centrifuging	Grinding	Blending	Vigorous shaking or mixing	Sonic disruption
Pipetting	Dissection	Stomacher	Inoculating animals intranasally	

Other (please describe):

Describe the procedures/equipment that will be used to prevent personnel exposure during aerosol-producing procedures:

EMERGENCY PROCEDURES

In the event of personnel exposure (e.g. mucous membrane exposure or parenteral inoculation), describe what steps will be taken including treatment, notification of proper supervisory and administrative officials, and medical follow up evaluation or treatment.

In the event of **environmental** contamination, describe what steps will be taken including a spill response plan incorporating necessary personal protective equipment (PPE) and decontamination procedures.

If more space is needed, you may attach a Word document. Please indicate "see attached" and list the file name in the space below.

TRANSPORTATION/SHIPMENT OF BIOLOGICAL MATERIALS

As per the Department of Transportation **49 CFR Parts 171-173** (5), some biological materials are regulated as hazardous materials and require special training of all personnel involved in shipping.

Will you be transporting or shipping any of the following off campus? (Yes or No)

Yes

No

If yes, check all that apply.

Cultures of human or animal pathogens

Environmental samples known or suspected to contain a human or animal pathogen

Human or animal material (including excreta, secretions, blood and its components, tissue or tissue fluids, and cell lines) containing or suspected of containing a human or animal pathogen

Have you or anyone in your lab involved in packaging, labeling, or completing/signing paper work received training to ship infectious substances or diagnostic specimens within the past three years?

Yes

No

If yes, please provide the following information.

Name

Date Trained

Certified Shipping Trainer
